

Our Multi-homed transit includes:

NTT Communications - Strength: US and Asian markets

This high quality Tier 1 IP backbone has been enhanced both in terms of bandwidth to support end users' broadband Internet usage, and in terms of direct connection to major ISPs in Asia, the U.S., Europe and Oceania. The network currently boasts the industry's largest dedicated Internet bandwidth of 19 Gbps between Japan and U.S and 18G in Asia Pacific to provide end users with fast, smooth global Internet connections. Moreover, this IP backbone is managed by one single policy end to end with industry leading SLA.

Level3 - Strength : US and surrounding counties

Level 3 provides the bandwidth and raw services that communications-intensive companies need to operate cost-efficient, high-performance networks. Using a multi-conduit, IP & Ethernet-optimized global network that they built and own, Level 3 provides underlying infrastructure for many of the most respected household names in the communications and Internet industries.

AboveNet / MFN - Strength : UK and US Metro and local areas

AboveNet's IP Bandwidth offerings overcome bandwidth limitations by giving you fast, reliable IP connectivity to the Internet within all major metropolitan areas-all over AboveNet's optical Internet long-haul backbone. AboveNet IP Bandwidth Services ensure that your data arrives quickly and reliably, whether you need easily managed Internet access from your cage in an AboveNet Data Centre or direct access to the Internet backbone. AboveNet offer superior connectivity speeds to areas of London and the US markets through their fibre networks.

Direct Peering - Strength : UK and Europe

We have agreements with over 400 ISP's in the UK, Europe and US to provide your servers with the optimum route for their traffic. This lowers latency and removes unnecessary hops. These include NTL, BT, Telewest, Nildram and many more. We also have links into all the major exchanges such as LIPEX, LONAP, XPE, LINX, MANAP, AMX-IX, BN-IX, GL-IX, NL-IX and more...

We can also provide direct Tier 1 transit for :

Cogent
KPN
NTT
Teleglobe
Tiscali
